

Broaden your reach

Serve your Spanish-speaking clients with a variety of assessment tools

In the U.S., Spanish is the most common non-English language spoken, with 13% of the population speaking Spanish at home. The U.S. is also home to the second-largest population of Spanish speakers in the world.¹

PAR offers **more than 40** assessment products in Spanish, available directly for purchase, that cover all categories of assessment. All are available in paper and pencil, and many are available for **online administration and scoring via PARiConnect.**

¹ Thompson, S. (2021, May 27). The U.S. has the second-largest population of Spanish speakers—How to equip your brand to serve them. *Forbes*. <https://bit.ly/3xB7dOn>

Not sure if you should assess in English or Spanish?

Testing culturally and linguistically diverse students and adults can be complicated because bilingual and English language learners have different levels of knowledge and fluency. The free **Language Acculturation Meter™** provides a framework to guide testing and help you make informed assessment decisions, ensuring bilingual and ELL examinees receive a fair and ecologically valid assessment. Also available in U.S. Spanish.
